

4x4 Flyer Template

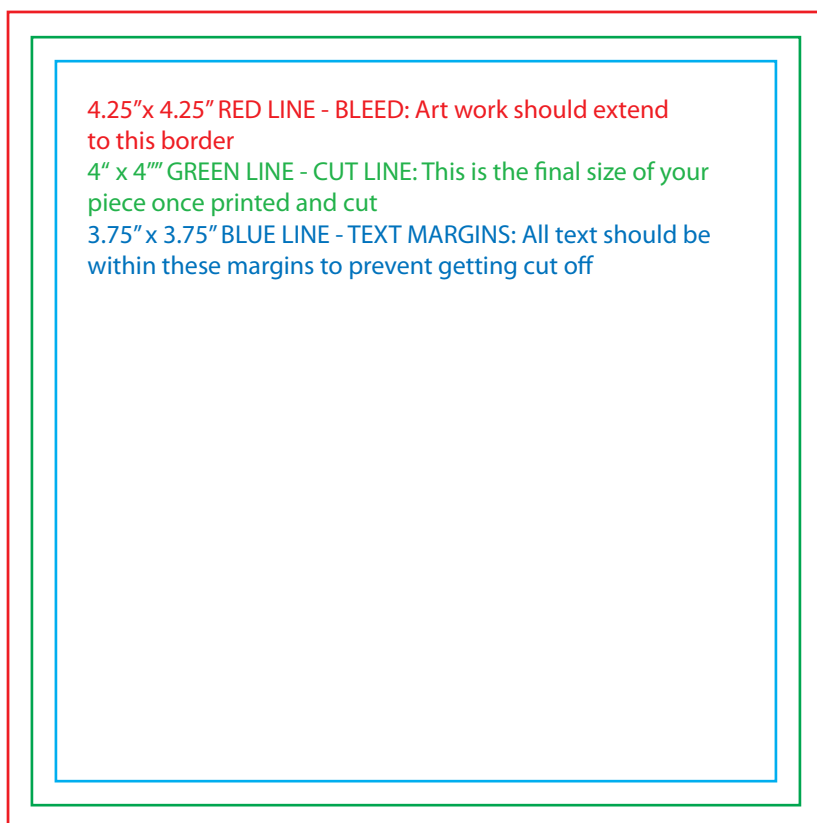

file size 4.25"x4.25"

For the best quality printing, we recommend no less than 300 dpi (resolution). Your art work needs to be created at this size originally, and saved properly in the appropriate format: PDF, TIF, JPG, EPS Please make sure to either **OUTLINE** all text/fonts, or send the fonts with your art. This will prevent any fonts from defaulting on our end. If you have any questions, please contact our design department.

DO NOT DESIGN OVER THIS TEMPLATE

This template is for reference only. You must make your file from scratch in your program of choice.

4.25"x 4.25" RED LINE - BLEED: Art work should extend to this border

4" x 4" GREEN LINE - CUT LINE: This is the final size of your piece once printed and cut

3.75" x 3.75" BLUE LINE - TEXT MARGINS: All text should be within these margins to prevent getting cut off

HOW TO USE THIS TEMPLATE:

You can either OPEN this file in ADOBE ILLUSTRATOR, select ONLY the template lines, copy & paste into a NEW PHOTOSHOP document. OR, you can simply make your file the appropriate sizes listed in the above template IN YOUR PROGRAM OF CHOICE.

FINAL FILE SIZE SUBMITTED FOR PRINT MUST BE THE BLEED SIZE.
