

# 4"x2" Template

file size 4.25"x2.25"

For the best quality printing, we recommend no less than **300 dpi (resolution)**. Your art work needs to be created at this size originally, and saved properly in the appropriate format: PDF, TIF, JPG, EPS Please make sure to either **OUTLINE** all text/fonts, or send the fonts with your art. This will prevent any fonts from defaulting on our end. If you have any questions, please contact our design department.
