5x7 Flyer Template
file size 5.125" x 7.125"

For the best quality printing, we recommend no less than 300 dpi (resolution). Your art work needs to be created at this size originally, and saved properly in the appropriate format: PDF, TIF, JPG, EPS Please make sure to either OUTLINE all text/fonts, or send the fonts with your art. This will prevent any fonts from defaulting on our end. If you have any questions, please contact our design department.

WHEN DESIGNING PRINT MATERIALS FOLLOW THESE GUIDES:

RED LINE - BLEED - 5.125"x7.125" - MAKE ALL BACKGROUND
ART TO THIS MARGIN.
THIS IS NECESARY FOR COLOR TO PRINT ALL THE WAY TO
THE EDGE OF THE PAPER
BLACK LINE - CUT - 5"x7" - THIS IS THE FINAL SIZE OF YOUR PRINT
BLUE LINE - TEXT SAFETY MARGIN - 4.75"x6.75" - ALL TEXT NEEDS
TO REMAIN WITHIN THIS MARGIN
TO PREVENT BEING CUT OFF

HOW TO USE THIS TEMPLATE:
You can either OPEN this file in ADOBE ILLUSTRATOR, select ONLY the template lines, copy & paste
into a NEW PHOTOSHOP document. OR, you can simply make your file the appropriate sizes listed
in the above template IN YOUR PROGRAM OF CHOICE.

FINAL FILE SIZE SUBMITTED FOR PRINT MUST BE THE BLEED SIZE.
file size 5.125" x 7.125"
